

Bringing Community Based  
Organizations and Local  
Researchers Together

Thursday, February 11, 2021, 10:00 am - 12:30 pm

11TH ANNUAL

Virtual Event - Link will be  
shared after registration

## *Resilience and Action to Improve Health*

**COMMUNITY-DRIVEN RESEARCH DAY** encourages collaborations between researchers and community based organizations (CBOs) and community groups who have research questions that they are interested in answering, specifically in ways that address social determinants of health. Through an interactive poster session, CBOs and community groups will highlight their questions to CDRD participants, who will include area non-profits, community groups, public sector partners, and researchers from The Children's Hospital of Philadelphia, The University of Pennsylvania, Temple University, Drexel University, Thomas Jefferson University, and the Philadelphia College of Osteopathic Medicine. CBOs, community groups, academic researchers, and students will be able to meet and discuss potential, mutually-beneficial collaborations.

**Keynote Speaker:** This event will include a keynote presentation by Barbara Israel, DrPH, Professor, Department of Health and Health Education, University of Michigan's School of Public Health. Dr. Israel is also the Director of the Detroit Community-Academic Urban Research Center. Dr. Israel has published widely and has extensive experience in conducting Community Based Participatory Research in collaboration with partners in diverse communities.

### **Presenters - CALL FOR SUBMISSIONS**

CBOs and community groups interested in developing partnerships to conduct research are urged to participate in an interactive virtual poster presentation that will highlight the organization's/group's mission, goals, and major accomplishments. Posters/Powerpoint will also display questions that they are interested in answering about partnering for healthy and safe communities.

**Submissions are due Monday, January 25, 2021.**
